ARGOSY CRASH TEST BARRIERS

Successful Business & Technical Tour in India and Indonesia!

New York, New York · November 4, 2026 · For Immediate Release

We have just completed a very successful business and technical tour across **India and Indonesia**, meeting with leading automotive OEMs, testing laboratories and research institutions.

PARTNERS ON THE GROUND

With the valuable support of our local partner **CONCORD** and our technical partner **GNS** in India, we had the opportunity to exchange insights on the latest developments in **vehicle passive safety, crash testing technologies, evolving NCAP protocols and future industry requirements**.

These meetings provided an excellent opportunity to better understand local market expectations, share ARGOSY's latest technical developments and explore new opportunities for cooperation.

THANK YOU

🙏 **A big thank you to all the OEMs, testing institutes and technical teams** who welcomed us so warmly and contributed to open, constructive and valuable technical discussions.

Special thanks to **CONCORD and GNS** for their excellent support and valuable contribution throughout our visit to India.

LOOKING AHEAD

We look forward to strengthening these relationships and supporting the continued development of vehicle safety across both markets.

Together, let's keep moving automotive safety forward!

ABOUT ARGOSY INTERNATIONAL

Argosy International supplies ARGOSY Crash Test Barriers to automotive OEMs, technical centers and crash test laboratories worldwide. Together with GNS mbH, ARGOSY barriers are supported by validated FE models, giving customers an integrated approach to physical crash testing and CAE simulation.
